STEEL FABRICATORS, STEEL MERCHANTS &
METAL MERCHANTS

MEMBER OF: AUSTRALIAN CONSTRUCTION INSTITUTE
AUSTRALIAN BUSINESS LIMITED

INTRODUCTION

Over thirty years a small metalworking shop trading as “Edmunds & Horton” has grown into a steel fabricator, successfully completing many varied complex structures in NSW.

Our name changed to  some twenty five years ago when a contract was won for QANTAS  House in Sydney to fabricate the majority of the Structural Steel and Metalwork for the skyscraper of it’s day .

Since then we have completed hundreds of major and thousands of minor contracts, some are shown in this presentation. We are proud to say  has never failed to complete a project it has started and most within it’s time frame.

 has also become the largest steel and metal merchant on Sydney’s Northside, supplying the construction, engineering and marine industries with steel needs, small and large.

Our business continues to grow on giving service and recognizing clients needs and schedules. Our thanks and gratitude is extended to the many clients we have served over the years and add a welcome to new clients and associations.
