

## **FARMFENCE**

89030 x 200 Metre

Made from high quality, heavy galvanised fencing wire, FarmFence™ uses the improved version of the old ring joint knot which prevents the vertical wire from slipping along the horizontal wire. The FarmFence™ also has a one piece vertical wire, giving the fence greater vertical stability. These two factors ensures FarmFence<sup>™</sup> is both easy to strain and low maintenance, saving time and money.
