DELTA POINT SETS BONUS STEP DRILL

HSS-M2 DELTA POINT ~ DRILLS FASTER, LASTS LONGER

The Delta Point drill bit is completely unlike traditional chisel point and split point drill bits. Delta Point drills have a multi-faceted cutting tip. The overall length of the cutting edge of Delta Point significantly exceeds that of conventional split point drills of comparable size. Although the final design might look complicated the results are simply extraordinary.

DELTA POINT METRIC HSS BRIGHT FINISH WITH BONUS HSS STEP DRILL

		SPECIAL
2015-M2-SDM1	19 PIECE BRIGHT FINISH METRIC SET 1.0-10.0MM X 0.5MM	\$90.00
2015-M3-SDM1	25 PIECE BRIGHT FINISH METRIC SET 1.0-13.0MM X 0.5MM	\$180.00
2015-M5-SDM1	19 PIECE BRIGHT FINISH METRIC SET 1.0-6.5MM X 0.5MM, 7.0-13.0MM X 1.0MM	\$115.00

PREMIUM COBALT DRILLS FOR HARD MATERIALS

HSS-Co5 (COBALT) 135° SPLIT POINT

The 135° point provides superior performance in harder steel materials especially in deep hole applications. In these situations it will produce thicker chips minimising work hardening of the cavity. Faster penetration reduces abrasion and friction along the cutting edges. Cobalt HSS drills are extremely hard and provide superior performance and increased tool life especially in stainless steel and high tensile steel.

METRIC HSS-Co5 BRONZE FINISH

		SPECIAL
2011-M2	19 PIECE COBALT BRONZE FINISH METRIC SET 1.0-10.0MM X 0.5	\$184.00
2011-M3	25 PIECE COBALT BRONZE FINISH METRIC SET 1.0-13.0MM X 0.5MM	\$400.00
2011-M5	19 PIECE COBALT BRONZE FINISH METRIC SET 1.0-6.5MM X 0.5MM, 7.0-13.0MM X 1.0MM	\$280.00
2011-M6	25 PIECE COBALT BRONZE FINISH METRIC SET 1.0-10.0MM X 0.5MM, 11.0-13.0MM X 1.0MM PLUS 3.3, 4.2, 6.8MM	\$299.50

2010-F5	21 PIECE COBALT BRONZE FINISH FRACTIONAL SET 1/16-1/4" X 1/64", 9/32-1/2" X 1/32"	\$316.00

DRILL SETS

FOLDING KNIFE

HSS-M2 118° SPLIT POINT

Split point is self centering and reduces the need for end thrust. Friction at workpiece is reduced. 118° point angles are ideal for use in materials such as mild steel and cast iron. The 118° point creates easily controlled chips which are wide and thin. Bright finish tools have no surface treatment and are supplied in the as-ground condition. These tools are suitable for general purpose use, particularly for non-ferrous applications. Black finish tools are generally recommended for ferrous applications where the oxide layer aids chip flow and heat dissipation.

METRIC HSS BRIGHT FINISH WITH BONUS MVRK KNIFE

		SPECIAL
2007-M2-C18	19 PIECE BRIGHT FINISH METRIC SET 1.0-10.0MM X 0.5MM	\$85.00

2011-M1S	1.0-6.5MM X 0.5MM	SPECIAL \$63.00
2010-F1S	1/16-1/4" X 1/64"	\$63.00

118° NOTCHED POINT 30° HELIX

Bordo reduced shank HSS drills are ground and then a black finish is achieved by steam tempering, a thermal process resulting in a porous tool coating. This surface aids chip flow and heat dissipation. The drill is then ground a second time to achieve a bright finish on the shank and cutting edges.

TUNGSTEN CARBIDE TIPPED HEX SHANK MASONRY DRILL SET

Specifically engineered for use in impact drivers these bits are also fully compatible with conventional rotary drills. 1/4" hex shank facilitates fast tool loading in cordless impact drivers and quick change adaptors. Suitable for use in: concrete, brick, block and stone.

TUNGSTEN CARBIDE TIPPED HEX SHANK CERAMIC TILE DRILL SET

These Rotary Only ceramic tile drills provide outstanding performance and extended tool life in hard ceramic materials. They feature a unique cutting edge geometry in conjunction with high temperature brazing to ensure reliable and accurate drilling in multiple hole applications.

UNIVERSAL DRILL SET

Special cutting edge geometry with a diamond-ground carbide tip. For use in masonry, natural stone, artificial stone, ceramics, steel, metal, wood, PVC, acrylic, glass, tiles, hard burnt brick. Not for hammer action.

STEEL WIRE

These brushes are suitable for a range of general applications in the paint, welding, and automotive trades. They are constructed using tempered steel wire and are the most economical general purpose brush.

STAINLESS STEEL WIRE

Stainless steel wire scratch brushes are primarily used for metal finishing on smooth surfaces such as plating. The stainless steel wire is non-corrosive and suitable where hygiene requirements are a consideration or where moisture is present. Stainless steel wire scratch brushes are predominantly used in the welding or painting industries. Stainless steel wire resists oxidation and rusting.

IMPACT RATED 3/8" SQUARE DRIVE BOLT EXTRACTOR SOCKET SET

This set covers 9 common socket sizes from 8 to 19mm and their chrome molybdenum steel construction ensures a long tool life even in the toughest conditions. The bolt extractor sockets feature a 3/8" square drive and are suitable for use with a 3/8" breaker bar or ratchet.

- 8, 10, 11, 12, 13, 14, 16, 17, 19mm sockets.
- Heavy duty chrome molybdenum steel construction.
- Standard socket 3/8" square drive.
- Rated for use with impact drivers.
- Clear and highly visible markings for quick socket selection.

 - Sizes 1-5.

SCREW EXTRACTOR SET 9900-SM2

- Chrome alloy spiral screw extractor set with left hand drills.
- Coarse-pitched tapered screw thread.
 - Sizes 1-5.
 - Matching HSS-Co5 (Cobalt) left hand drills.

SCREWOUT SET 9901-S1

For the rapid removal of damaged screws & bolts.

- Removes #4 to #14 Screws.
- Removes 5.0mm to 8.0mm Bolts.
- Removes #10 to 5/16" Bolts.

SQUARE SCREW EXTRACTOR SET 9904-S1

Chrome molybdenum square screw extractor set.

- Sizes 1-5.
- Four sided sharp undercut edges to provide a solid grip and will not expand damaged fastener during extraction.

HOLE SAW HOLE ENLARGER SET

Re-cut your hole using a new size hole saw. Any hole between 52mm and 92mm can be enlarged. Minimum starting hole size 52mm. Minimum enlargement is 15mm greater than existing hole. Suits mandrels with 1/4" (6.35mm) pilot drill.

\$58.00

Part No. 7060-HES1

BI-METAL HOLE SAWS

Bordo bi-metal hole saws are premium quality, general purpose saws suitable for a wide variety of materials and applications. The high-speed steel cobalt (HSS-Co) cutting edge provides shock resistant teeth and resists tooth strippage. 4/6 positive tooth configuration allows for fast, smooth cuts and less vibration.

FEATURES

HSS-Co Cobalt cutting edge.
4/6 variable tooth configuration.
48mm (1-7/8") depth of cut.
5mm (3/16") thick heavy-duty backing plate eliminates need for drive plate.

RIPPER HEAVY DUTY TUNGSTEN CARBIDE TIPPED HOLE SAWS

Ideal for cutting timber and all types of composite board, particularly MDF. Ripper hole saws are also suitable for cutting wood laminates, plywood, insulation and fibre cement sheet.

FEATURES

Heavy duty abrasion resistant tungsten carbide teeth will cut materials that quickly dull normal hole saws. Heavy duty construction for long life with large gullets for easy slug removal.

RIPPER TCT KITS

7075-S1	9 SAWS – 25 TO 64MM	SPECIAL \$266.50

TUNGSTEN CARBIDE HOLE SAWS

XP TCT hole saws are ideal for repetition cutting in steel plate, stainless steel plate and synthetic resin plates up to 4mm thick. XP2 TCT hole saws feature 3 edged cutters which balance the cutting effort for smoother boring, greater control and reduced drag. The deep body makes them ideal for use with curved surfaces such as metal pipes.

FEATURES

Extremely long service life.
No need for messy cutting fluids.
Heavy duty plug ejector spring.

XP AND XP2 TCT KITS

HSS ANNULAR CUTTERS

Annular Cutters achieve burr-free finished holes without the need for pre-drilling or step drilling. Faster and more accurate than using standard HSS twist drills. Bordo Annular Cutters are CNC ground and feature multi-cut geometry for smooth and fast cutting. The precision ground flutes run the entire length of the cutter providing efficient chip removal.

FEATURES

Extended tool life.
Close tolerance drilling without runout.
Reamed quality, burr free finished holes.
Universal shank suits all popular machines.

ANNULAR CUTTER KITS

7400-S1X50	50MM CUT DEPTH 14 TO 25MM	SPECIAL \$367.00

THINWALL SHEETMETAL HOLE SAWS

Ideal for the electrical and plumbing tradesman. Each hole saw has a thin 0.65mm sidewall blade thickness, which allows for faster cutting and longer battery life. Ideal for chargeable impact drivers. Smooth and fast cutting — especially designed tooth geometry assures increased performance and better wear resistance.

FEATURES

M42 material with special variable pitch tooth design for smoother cuts in sheet metal.
Self ejecting plug removal.
1/4" quick change shank, ideal for use with battery operated impact drivers.
Safety collar stop helps prevent cutting too deep, and prevents damage to wires when drilling into electrical boxes.

MULTI-FACET TCT CERAMIC TILE DRILLS

These Rotary Only ceramic tile drills provide outstanding performance and extended tool life in hard ceramic materials. They feature a unique cutting edge geometry in conjunction with high temperature brazing to ensure reliable and accurate drilling in multiple hole applications. Use of water cooling will extend bit life. Although these drill bits are not recommended for drilling vitrified porcelain, their superior multi-facet tungsten carbide tip enables them to drill most materials of this type, albeit with a reduced tool life. These ceramic tile drills can also be used to successfully drill in brick, concrete and other masonry materials.

BRILLIANT DIAMOND HOLE SAW KIT

Saws feature a M14 thread for use on an angle grinder. Mandrel allows saws to be used in a pistol drill. Sizes up to and including 25mm feature a wax filled core that lubricates the cutting edge allowing dry, water free, drilling.

BRILLIANT DIAMOND CORE DRILLS 1/4" HEX SHANK SET

The wax filled core lubricates the cutting edge allowing dry, water free, drilling.

TUNGSTEN CARBIDE 4 CUTTER GLASS AND TILE DRILL SET

Precision diamond ground, double chamfered spear point tungsten carbide for fast cutting and extreme tool life (when used at slow to medium speeds). Fast starting with reduced bit wander. Suitable for use in: glazed and un-glazed ceramic tiles, glazed porcelain tiles, through-body porcelain tiles, plate (float) glass and annealed glass. Not suitable for use with toughened or laminated safety glass.

rapidcut®

- Ultra thin kerf for faster, effortless cuts.
- Tru-plate fully hardened and tempered steel body is precision balanced to run truer.
- High performance diamond ground carbide for improved cutting efficiency – sharper for longer!
- Nano-shield coating reduces friction for reduced saw load, resists gumming keeping blade cooler and extending blade life.

tradecut®

- Heavy duty anti-kickback tooth shoulders which provide optimum support to the cutting tips ensuring maximum performance, extended blade life and safer cutting.
- Fully hardened & tempered steel body resists warping even in the most demanding applications.
- High performance diamond ground carbide for improved cutting efficiency – sharper for longer!

multicut®

- Extreme performance titanium carbide metal cutting teeth provide long blade life.
- Cuts multiple materials including timber, ferrous metal, non-ferrous metal and plastics.
- Cool cutting, no heat, no burrs and minimal sparks when cutting metal.
- Dust free metal cutting. Unlike abrasive cutting wheels multicut blades create chips not dust.

HIGH CARBON FAST CUT SPADE BITS

Bordo fast cut spade bits are ideal for creating holes in a wide variety of timbers.

- Low cost per hole.
- Fast starting.
- Heavy duty shank prevents bending.
- Hex shank prevents slippage in chuck.
- Hex shank ensures a positive lock in spade bit extensions.

QUAD MAX 4 FLUTE CUTTER SETS

Use for all general drilling in wood.

- Starts quickly in dry, wet and gummy wood.
- Cutting spurs reduce splintering to ensure a smooth clean hole.
- Four cutting surfaces – up to 10 times faster than standard spade bits.

saber

Saber general purpose cobalt bi-metal hole saws have a 38mm depth of cut and are suitable for a wide variety of materials and applications. The cutting edge provides shock resistant teeth and resists tooth stripping. 4/6 positive tooth configuration allows for fast, smooth cuts and less vibration.

SABER S2 & S3 QUICK CHANGE SETS

Each saw in the set is fitted with a quick change adaptor. In the smaller saws the adaptor includes holes for the mandrel drive pins. In the large saws the mandrel drive pins engage directly with the holes in the back of the saw body. Simply retract the mandrel collar and slide the saw in place. Align the drive pins with the adaptor or saw body. Release the collar and it securely locks the saw in place. Fast and simple saw changes!

STANDARD S1 SET

Goliath Semi-Synthetic Water Soluble Long Life Cutting Fluid (High Performance) easily mixes with water to give a low odour, biostable Extreme Pressure soluble cutting fluid providing excellent corrosion protection, lubricating properties, and a proven sump life in excess of 12 months, without the need for biocide addition.

Rapid Tap® All Metal Cutting Fluid USA Made Relton Rapid Tap® greatly extends tool life with superior lubricating and cooling properties. Rapid Tap® creates a super fine machined finish operation after operation. Excels in tough materials. Contains no 1,1,1- trichloroethane or other ozone-depleting chemicals.

Stick-Kut Relton Stick-Kut is a blended wax stick designed for use in applications where liquid coolants are not feasible or desirable. Suitable for use on aluminium, brass, plastic, ferrous, and non-ferrous materials.

EZ Chamfer®

8-22MM 5/16-7/8"
**CHAMFER AND DE-BURR BOLTS,
 PIPE, THREADED ROD, BAR & DOWELS.**
M2-HSS FOR EXTREME TOOL LIFE.

Suitable for use in a wide range ferrous and non-ferrous metals, including:

- ✓ **MILD STEEL**
U.S. Grade 2, Metric Grade 4.8
- ✓ **HARD STEEL**
U.S. Grade 5, Metric Grade 8.8
- ✓ **VERY HARD STEEL**
U.S. Grade 8, Metric Grade 10.9
- ✓ **STAINLESS STEEL**
300 Series
- ✓ **SUPER HARD STEEL**
U.S. Grade ASTM-A574, Metric Grade 12.9

\$78.00
 Part No. 2210-822

Create a perfect chamfer for:

- starting a nut on a bolt or threaded bar.
- starting a button die or die nut on rod.
- creating a leading edge on timber dowel.

E-Z Chamfer efficiently removes burrs and ridges from bolts, pipe, threaded rod, bar and dowels. It is suitable for use on metals including mild and hardened steels, stainless steel, copper and brass, as well as timber, fibreglass and plastics.

E-Z Chamfer prevents sparks and burns. When used correctly at low RPMs the tool will not overheat the workpiece. Threads and burrs are sheared off creating the perfect chamfer for starting a nut or threading die.

DECK BIT WITH ADJUSTABLE COUNTERSINK

Bordo Deck Bits are fully adjustable to suit your specific fastener, timber species or custom application. Additionally Deck Bits feature:

- Pilot hole to suit 10G or 14G screws.
- Prevent decking timber splitting.
- Adjustable, free spinning, non-marking collar.
- Wide gullets prevent the jamming and clogging of wood chips.

DECK BIT - HIGH CARBON STEEL
